Every month our country grows weirder. It appears to me like they pumped Biden up with any drug that would keep him upright and seemingly functional. They certainly could not risk Harris showing her true colors as leader of the free world, though I think it was their intention all along to take Biden out of the election. His coming down with COVID came at a convenient time. There are reports Biden suffered a medical emergency while campaigning in Las Vegas, some even believe it was a mini stroke.

Several religious teachers on You Tube are saying that what happened to Trump was of biblical significance and was proof the hand of God is indeed on him. Others are saying there may very likely be another attempt on his life before the election or after if he wins. It is up to us to all double down on encouraging people to register and vote. I think discussing the issues to point undecided voters to do their own research on what is going on, rather than try to convince them to vote one way or the other. After all, we have truth on our side. I like the method Charlie Kirk with Turning Point USA uses to have calm, respectful discussions with people. You know the left has gone too far when its own supporters call them out, such as Bill Maher, Stephen Colbert, etc.

This is **the** biggest election year in history, with at least 70 countries (according to CNN) around the world electing national leaders in 2024, as well as the EU's in June. This represents about half of the global population. Here are links for more information; the second link includes a timeline of each country's election:

- <https://www.cnn.com/2024/07/08/world/global-elections-2024-maps-charts-dg/index.html>

One election of note was Russia's (one of the 30% undemocratic regimes with elections this year) Putin won by a 87.3% landslide making this his 5<sup>th</sup> term in office. After winning his fourth term in 2020, he amended the constitution for term limits, potentially enabling him to stay in power until 2036! Of course, his huge win is likely because any opposition to him was "ended" in some manner or other. How far is the US from this kind of 'regime'? Not far, if the left are allowed to lead our country. Let us do our best to keep that from happening! As President Trump has indicated, we must continue to Fight, Fight, FIGHT!!!

## SPOTLIGHT MEMBER – RENE'E HURST

Hi there,

I was born and raised in San Bernardino, CA. My mother died when I was 9 yrs. old, so I was raised by my grandparents. I graduated from Pacific High School in CA.

In 1980, I met my husband whom I have been married to for 43 wonderful years. He and I went into a fishing tackle manufacturing business because of his love of fishing. I also worked in Market Research for A. C. Neilson/Dunn & Bradstreet for almost 20 years. I have been in the security field since 1999, starting at Canyon Lake, CA, as dispatcher, also at Soboba Indian Reservation as dispatch and ending as Executive Secretary to the director of Tribal Enforcement.

We moved to LHC and built our home in 1989 and had to sell and return to CA at the 1996 economic down turn. We returned to Havasu in 2013 where I have been employed in the security field again at ASU and Beachcomber Estates.

For many years quilting has been my leisure activity along with reading and attending Redemption Hill Calvary Chapel church regularly.

Dixie White inspired me to join LBRW last fall as I wanted to become more informed in our local and national politics.

### Cil Jennings, MCRCC 2<sup>nd</sup> Vice Chair, LBRW Legislative Chair

The Primary Election has been finalized. All of our Republican candidates have been chosen. It is extremely important for all of us to join together to fight for our Republican candidates all the way down the ballot. There are innumerable opportunities for each and every one of you to do your part to help accomplish that. You can stop by the District III Republican Office on McCulloch to let us know that you are ready to volunteer, if you haven't already. The volunteers in the office will take your name and contact info, so that we can get with you to find the best options for you.

As was pointed out at our August dinner, people are receiving mailers and emails that tell them they need to register or to sign up for their mail-in ballot. PLEASE do not reply to any of those. Some may be good groups, but how do you know? It is not a good idea to give your voter registration out. INSTEAD, it is safer to verify your registration and mail-in ballot status by going online to <https://my.arizona.vote> or by calling the Registration Office in Kingman at 928-753-0767.

## Voting for Trump?

That moment when someone says, "I can't believe you would vote for Trump", I simply reply, "I'm not voting for Trump."

I'm voting for the First Amendment and freedom of speech.

I'm voting for individual opportunity and against communism as Harris put it "equal outcomes for all".

I'm voting for secure borders and legal immigration. I can't believe we actually have flown 380,000 illegal immigrants into our country.

I'm voting for keeping our jobs in America and not be outsourced all over the world - to China, Mexico and other foreign countries. I want USA made.

I'm voting for doing away with all of the freebies given to all of the illegals and not looking after the needs of the American citizens.

I'm voting for the continued growth of my retirement and reducing inflation.

I'm voting for peace in the Middle East.

I'm voting to fight against human/child trafficking.

I'm voting for Freedom of Religion.

I'm voting for the right to speak my opinion and not be censored.

I'm voting for the return of teaching math, history, and science instead of indoctrination of our children and pronouns.

I'm voting for the Military & the Veterans who fought for this Country to give the American people their freedoms.

I'm voting for the Second Amendment and my right to defend my life and my family.

I'm voting for the next Supreme Court Justice(s) to protect the Constitution and the Bill of Rights.

I'm voting for a return of our troops from foreign countries and the end to America's involvement in foreign conflicts.

I'm voting for the Electoral College and for the Republic in which we live.

I'm voting for the Police to be respected once again and to ensure Law & Order. I am tired of all the criminals having a revolving door and being put back in the street.

I'm voting for the continued appointment of Federal Judges who respect the Constitution and the Bill of Rights.

I'm voting for the nearly born babies that have a right to live.

I'm voting for little ones to ensure their freedoms and their future.

I'm not just voting for one person, I'm voting for the future of my Country.

WHAT are you voting for?

Trump/Vance2024 us ❤️

I want to thank London Bridge Republican Woman for giving me the opportunity to share with you what I am doing at Lake Havasu High School. Along with two of my friends, Brian and Carley who are also students, we are engaging our student body into the national political climate in America.

Now for three years my dad, Pastor David Rose, has been a partner with Turning Point USA and TPUSA Faith. My dad also serves on the board for the Turning Point Faith coalition. My family's involvement with Charlie Kirk and the Turning Point family has given me a great desire to be heavily involved in politics and do whatever I can to save America.

As a current student of Lake Havasu High School I want to help educate my peers about the current challenges we are going to face when we graduate thanks to the Biden administration and their terrible policies that have destroyed America and it will be up to my generation to build back a stronger Nation.

It is time that you defend my generation by identifying politicians and leaders that have infiltrated our Republican Party by lying and calling themselves republicans when really they are democrats with an agenda to destroy our party. If you don't, my generation will be faced with the consequences of this failure. So I am calling on your generation to stand up and fight for the future of our party and America. If not for you, then do it for the future generations to come.

We are watching the current administration borrow money from my generation setting us up for an economic collapse if we don't do something now to end the madness that is effecting all of us. That's why it is so important for students to be involved now. I am excited to share with you that me and my friends have launched a Turning Point USA chapter at our high school.

Our chapter will stand and represent America First Policies and stand against any woke ideology that tries to destroy our schools and our community. We will work to engage, educate, and equip my generation and generations to come with conservative constitutional values and policies that our Nation was founded on. I am one of several students that was picked by Turning Point to attend the chapter leadership summit this summer along with the Turning Point Peoples conference. I will get to be with National leaders such as Charlie Kirk, President Donald Trump, Senator Tim Scott, Candace Owens and more!

Please support my generation to carry the mantle to Make America Great Again.

Thank you,  
Christopher Rose

## This is Lara Goodell, regional leader for Arizona Free Enterprise Club.

I will do my best to keep you up-to-date on our latest battles against big government, special interest, and how you can help protect our freedoms and keep Arizona and Lake Havasu City a great place to live.

I hope everybody is staying cool! Primaries are over. The general election is just around the corner. Actually, it's coming at lighting speed. I hope you all are registered to vote and have brought in as many people as possible within your own friend groups and family members to the importance of voting this election (ALL elections)! Our votes do matter.

With that being said, other than knowing who to vote for in an election, we must educate ourselves as much as possible on the propositions coming up in the general. Our legislators have made it a priority to let us know as well at our monthly meetings. If you have not been taking notes, I hope this helps and watch for that golden ticket with the propositions because that is a great way to share the knowledge with other voters. If you have not yet gone on the Arizona free Enterprise club website I highly encourage you do so. [www.azfree.org](http://www.azfree.org) **Click on Action Center, then Good and bad bills** All the propositions are on there that have to do with conservative views and they talk about others as well.

Let's break one down. Prop 134 is a fair and balanced approach to increasing representation. Arizona is in the minority as a state with a citizen, initiative process and smaller minority as a state without a geographic distribution requirement, and finally in a minority of one of the "Voter Protection Act" that essentially makes ballot measures permanent. This proposition requires signatures to be collected from every district in Arizona to ensure proponents of initiatives. Speak to Arizona across the state. This helps to increase voter participation, and ensuring that any measure qualifying for the ballot in November that has board support from every part of the state, not just one demographic, in one area, with a limited scope of interests.

To get more information like this please go to Arizona Free enterprise club to access videos and gain an awesome understanding of how special interest groups spend millions of dollars in Arizona to buy their initiatives onto our ballot. Take action there is no better time than the present!

Thank you for taking the time to read this.

Your AZ Free regional leader and LBRW club member,

August 18, 2024 **Harris/Walz: Mostly Peaceful**

By **J.B. Shurk**

I saw a t-shirt design shortly after Kween Kamala selected Chinese Communist Party stooge Tim Walz to join her on the vote-free Dim-Dem ticket. It showed the pernicious pair standing in front of a city on fire with this campaign slogan: *Harris/Walz — Mostly Peaceful*. Boy did the anonymous creator get that one right.

Walz lazily watched as Black Lives Matter and Antifa arsonists burned parts of Minneapolis and Saint Paul to the ground during 2020's "summer of love" riots. (His wife [enjoyed the carnage](#) so much that she spent her nights getting high from the smell of incinerated businesses.) Not to be upstaged, Harris encouraged people to donate to sketchy groups [bailing out criminals](#) who had been arrested for vandalizing property, looting stores, torching police precincts, and attacking citizens unfortunate enough to reside within Walz's Twin Cities. This is what the Democrap Party sees as stand-up leadership these days: a couple of [terrorist sympathizers](#) willing to promote violence against Americans for personal political gain.

Call me crazy, but I don't think politicians who fail to protect cities should be put in charge of protecting nations. On the other hand, if the goal is to "let America burn," Walz and Harris make perfect sense. Walz is an out-and-proud Maoist who enjoys vacationing in China (including [celebrating his nuptials](#) in Tiananmen Square). Harris not only supercharged inflation by casting the deciding vote for the Green New Deal boondoggle but also plans on using [government force](#) to [further manipulate](#) food, fuel, and housing markets. If Tim and Kam get the chance, they will do everything they can to transform the United States into Maduro's Venezuela. They will light the whole country ablaze and leave America in "mostly peaceful" ashes.

What else would you expect from a political party that hates America? That question is hardly hyperbole. Can you imagine Tim Walz, Kamala Harris, or any other prominent Democrat saying, "I love America," today? Their voters would eat

them alive. *How dare you love this patriarchal, imperialist, white supremacist, evil place!* Even Joe Biden — who has been in government for half-a-century and would surely be the poster boy for the so-called “white patriarchy” — has learned that he must start every speech by slandering America as irredeemably “racist.” It’s lunacy. Could Vladimir Putin lead Russia if he told Russians how awful they are every day? Would Xi Jinping control China if he took every opportunity to complain about “Chinese supremacy”? Yet here in the United States, Democrat Party leaders rise only by first expressing their antipathy for this place and its inhabitants.

The propaganda press is right now obsessed with painting Tweedle-Harris and Tweedle-Walz as happy-go-lucky friends bursting with joy. This contrived portrait is supposed to contrast with all the dark imagery those same propagandists use to disparage President Trump. But if you’ve ever been to a Trump rally, you know the exact opposite is true. MAGA voters are true patriots who love their country. They are quick to welcome newcomers. They are genuinely happy warriors who wish to include people from all walks of life. When President Trump takes the stage, he speaks about what Americans can do *together*. He talks about how Americans can turn their country around and build a better future. He reminds Americans that they come from hardy stock. He encourages listeners to honor heroes of the past while inspiring new heroes today.

None of that would fly at a Harris/Walz rage-fest. Any political party that runs on racial and cultural divisiveness must always have *someone* to blame. Who that someone is doesn’t really matter; what matters is that Democrats have some new “oppressor” to vilify and some new class of “oppressed” to defend.

To be sure, this kind of exploitative politicking means that Democrats are spasmodically shifting gears every few years. In the 90s, Bill and Hillary Clinton called black men “[super-predators](#)” and defended mass incarceration. Joe Biden, a defender of [segregation](#) earlier in his career, was still friends with at least one “[Exalted Cyclops](#)” of the KKK. Thirty years later, and Democrats demand racial reparations, no-cash bail, the end of prisons, and amnesty for most misdemeanors. Biden tells black audiences that *Republicans* want to [put them in chains](#). Similar flip-flops abound. Democrats once supported Israel and warned about the threat of Islamic terrorists. Now they support Islamic terrorists and warn about Israeli “occupation.” They once supported women’s rights and women’s sports. Now they support a man’s right to define what it means to be a woman. They used to demand border security and protection for Americans’ blue-collar jobs. Now they demand that illegal immigrants have all of America’s blue-collar jobs. Today, Democrats rail against *whitey*. Tomorrow, they’ll be railing against *someone else*.

One thing will never change: Democrats will always isolate some unlucky group for expedient political gain. What they will never do is acknowledge that their *divide-and-conquer* politics destroys everything. A party that separates citizens into distinct categories of “oppressor” and “oppressed” depends on creating policies that exacerbate social misery. Unity is its enemy. When Democrat foot soldiers chant, “No justice, no peace,” those are two separate promises.

Right now people are wondering whether the Democrats will have a fiery but “mostly peaceful” convention in Chicago this week. Will the Hamas-loving [Jew-haters](#) turn Kam-Kam’s coronation into a public relations nightmare? Will Chicago’s army of illegal immigrants and collection of criminal gangs target the party’s well-to-do? Will the “climate change” fanatics glue themselves to the United Center’s entrance doors? Will the communists tolerate the oligarchs in their midst? Will local cops defend “defund the police” agitators from security threats?

So many “oppressive” and “oppressed” clans forced to share the same space. Democrats are a potpourri of adversarial misfits bound chiefly by two things: *anger* and *hate*. That leaves Democrat leaders with one essential job: to make sure all that anger and hate are directed somewhere outside of the party. It’s okay if America burns, so long as the party lives. In fact, creating the conditions to ensure that *only* the party lives is the idea!

What happens if Democrats get their way? They showed us during the COVID lockdowns of 2020. We get a nation where politicians decide whether we may go to work, pray at church, or visit friends. We get a closed society in which the Bill of Rights is suspended for every declared “emergency.” We get Democrat mayors threatening to jail dissenters for their speech and Democrat governors siccing National Guard troops on communities that resist. We get mass surveillance, civil fines, and quasi-martial law. We get food and fuel shortages, business closures, and housing crises. We get one-party totalitarianism that glorifies fraudulent “expertise.” In other words, we get endless division, intimidation, misery, anger, and hate.

As governor of Minnesota, Tim Walz closed schools, shuttered small businesses, and isolated neighbors from each other. He opened COVID [snitch lines](#) straight out of East Germany. He threatened citizens for [exercising free speech](#). He ordered riot cops to [shoot paintballs at residents](#) standing just outside their homes. Along with other Democrat tyrants, he caused irreparable economic and social harm. Then he took advantage of George Floyd’s death in Minneapolis to foment racial violence that caused a billion dollars worth of damage. Not once has he apologized for all the destruction under his watch. He believes he has done nothing wrong. *This* is the person Kamala Harris wants for her second-in-command.

When Democrats tell us who they are, it’s best to believe them. They are civil arsonists, plain and simple. They cannot build a [Kamunist State](#) without first razing what’s left of America to the ground.
